

Jenny Yang
jyang@live.ca

Work Experience:

BC Cancer Agency (Genome Sciences Centre) – Bioinformatics Intern (May 2016 – Present)

- Working within the Jones Lab Group, under supervision of Dr. Steve Jones.
- Performing development and testing in Python
- Using an autoencoder to determine and analyze the most predictive genes in cancer classification

Non-Invasive Neurostimulation Therapies (NINET) Lab – Research Intern (September 2016 – May 2016)

- Working within the NINET Lab under supervision of Dr. Fidel Vila-Rodriguez.
- Writing scripts in R to organize and analyze data.
- Applying machine learning algorithms to clinical data
- Designed and developed a dynamic and informative website for the lab.
- Site administrator for NINET's (REDCap) CFRI and CAMH project servers (5 active projects).

BC Cancer Agency (Genome Sciences Centre) – Bioinformatics Intern (August 2016 – September 2016)

- Working within the Jones Lab Group, under supervision of Dr. Steve Jones.
- Created and tested a server for the uploading and sharing of Personalized Oncogenetics data.
- Wrote scripts in Python to implement and facilitate the uploading and validation of this data within the Global Alliance database.

SMART Technologies – Software Test Developer Intern (January 2016 – May 2016)

- With a team of 6 interns, completed the full-stack development (Javascript, HTML, CSS) of an Image Search Add-on for the SMART Notebook Application (add-on released to millions of users in April 2016)
- Working on stories in an agile development process with experienced developers.
- Coding automated tests and frameworks for front end UIs, back end APIs and everything in between.
- Nerf gun ambushes on other project sub-teams.

Presentations:

Jenny Yang, Daniel Blumberger, Zafiris J Daskalakis, Colleen Northcott, Joe Tham, Raymond Lam, Jonathan Downar, Fidel Vila-Rodriguez. Machine Learning Predicts Response to rTMS in Depression. UBC Department of Psychiatry Research Day, Vancouver, Canada. May 25, 2017.

Afifa Humaira, **Jenny Yang**, Katie Green, Nick Ainsworth, Marlon Danilewitz, Colleen Northcott, Daniel Blumberger, Jonathan Downar, Zafiris Daskalakis, Joe Tham, Raymond Lam, Fidel Vila-Rodriguez. Side Effects of rTMS in HFL vs. TBS Study for Major Depressive Disorder Treatment. UBC Undergraduate Neuroscience Conference, Vancouver, Canada. Sep 9, 2016.

Education:

University of British Columbia (September 2014 – Present)

- B.A.Sc. Engineering Physics (with Pre-Medical Alternative Pathway)
 - Cumulative GPA: A- (2015, 2016, 2017)
 - UBC Dean's Honor List
 - UBC Chancellor's Scholar Designation
